

Some of you are coming back to school next month and some will be coming back at a later stage. Put the different things into the correct row depending on whether you think it will change or stay the same and add any other ideas you may have on changes or things that will be the same.

<i>WHAT STAYS THE SAME?</i>	<i>WHAT CHANGES?</i>

*Cut each saying out and stick it into the correct side. Remember you can also add your own ideas to the table.

My teacher will be there	The tables will be further away	All the windows as well as the door will be open to circulate air better
My classmates will be there	I will still have things like Art and Music	I will be doing school work
I will have to keep a distance from my friends	I will still have fun.	I need to wear a mask
I need to go through a checkpoint to make sure I clean my hands and feel healthy for school.	There will be circles on the floor to remind me to stay the right space away from others	My friends and teachers will still care for me and be happy to see me
Break times will be different	My class will be the same	I will still have fun lessons.
