

Emotional Snap

1. Share out all the cards between each person playing. You can have anyone from 2 to 6 players.
2. Everyone turns over a card at the same time. If there are two or more cards with the same emotion, shout SNAP and make the face of the emotion as you do it.
3. The person who says SNAP and pulls the correct face first is the winner and takes all the cards on the table.
4. Carry on playing until one player has won or stop playing after a set time and whoever has the most cards wins.
5. ENJOY IT!
